## HARDING HAS BUSY DAY

Nominee Steadfastly Declines to  
Make Any Statement on  
Political Policies

New York, June 14.—Charges that "a motley group of stock gamblers, oil and mining promoters, munition makers, and other like persons, seized upon so good a man as General Wood and with reckless audacity started out to buy for him the Presidential nomination," were made in a statement given out here tonight by Nicholas Murray Butler, an unsuccessful candidate for the Republican nomination.

"It was the cause of genuine sorrow to me, as to many other of General Wood's personal friends," he said, "to see him put in this unhappy position. There was nothing to do in order to save the Republican party but to defeat the band of men that were behind him with their bank accounts and their great financial influence. This meant that we had to defeat Wood himself."

### Had to Prevent Sale of Votes.

"The forces that were defeated in their frantic attempt to buy the nomination," he added, "represent all that is worst in American business and political life. It is really too bad that they hit upon General Wood as their choice. They should have found someone to support for whom the country has less respect and less regard."

"The chief task of the convention was to prevent the sale of presidential nominations at auction to the highest bidder. Had this not been done the party faced not only certain defeat but crushing dishonor. The 68 New York delegates who voted for me on the first ballot were the chief factor in stopping the Hindenburg drive to overwhelm the convention by the power of unlimited money and by strong-arm methods in presidential primaries."

The story of New York's 68 votes for Butler shows, the statement says, how General Wood was defeated. It points out that the first ballot gave General Wood a substantial lead, and that "the first task, therefore, was to bring the votes of his nearest rival, Governor Lowden, at least up to Wood's vote."

Owing to local and state complications, the statement explained, there were very few sources from which the strength for Lowden could be drawn so early in the balloting. Pennsylvania, Massachusetts, Michigan and Ohio could not help, it added, because the release of delegates in those states probably would give Wood more votes than Lowden.

### New York 'Belgium of the War.'

"It was clearly necessary, therefore," the statement continued, "for New York to become the Belgium of the war and I cheerfully gave my approval for the plan to turn New York's vote to Lowden in increasing his column on the second, third, fourth, fifth, sixth and seventh ballots. I sent word to the New York delegation by James R. Sheffield that with me party success and party honor come first. I always said that no personal interest of mine should be considered until party success and party honor had been protected."

It was this New York vote for Lowden, taken from the 68 votes that had been cast for me, that gave Lowden his lead on the fifth ballot and that enabled him substantially to equal the Wood vote on the ballot immediately following. When, after the seventh ballot, it was clear that Lowden could not be nominated, we helped the drift toward Harding and on the eighth ballot, became the decisive psychological factor by giving Harding 65 votes.

The few New York votes that continued to support me to the end were cast in pursuance of earnest requests from delegates in Connecticut, New Jersey, Michigan, Minnesota, Illinois, Iowa, Missouri, North Dakota, Cal-

### New Yorkers Should Rejoice.

"The New Yorkers who care for the success of its principles and who are zealous of the honor, should rejoice and take satisfaction that their representatives in the Republican national convention, although by no means unified in sentiment or in organization, were yet able to exert so commanding an influence in a great emergency."

"Harding and Coolidge," the statement closed, "are first of all patriotic Americans and next Republicans to the core. We are to have the satisfaction of supporting and electing a Republican ticket. We may now look forward with complete confidence to the restoration of the national government to its old foundations, which are love and reverence for the constitution of the United States."

## Harding Finds Life of Nominee Strenuous One

Washington, June 14.—Senator Harding today found the life of the Republican presidential nominee strenuous, although he held no important political conferences.

The senator went to his office at the capitol shortly before noon, posed for motion picture men, greeted senate employees, received a few personal friends who called to congratulate him, went over great piles of congratulatory telegrams, played a round of golf at a nearby country club, and then worked far into the night at his home in an effort to catch up with rapidly increasing correspondence.

The nominee steadfastly declined to make any statement regarding his position on party policies, indicating that he would have nothing to say on those matters until his speech accepting the nomination. He also said that pending his official nomination he would withhold making public his campaign plans. He also declined to say at this time whether he would resign his senate seat.

### Plans for Future Indefinite.

Senator Harding's plans for the immediate future are indefinite. He intends to remain in Washington until late this week, when he will leave for a brief vacation. He does not contemplate reaching his home in Marion, Ohio, before about July 1. The notification ceremonies are to take place soon after, as the vacation will give him an opportunity to prepare his speech of acceptance sounding the campaign keynote.

Chairman Hays, of the Republican National committee, and a number of party leaders, are expected to confer with the Ohio senator probably next Monday, although the date has not been definitely fixed. The place of the conference, also, it was understood, has not been determined. Senator Lodge of Massachusetts, who was chairman of the Chicago convention, Senator Smoot of Utah and other Republican leaders, are in Washington, but no engagements for a conference have so far been arranged. It was said tonight, Senator Lodge plans to leave for his home tomorrow, while the Utah senator will remain another week.

### Informal Reception for Nominee.

Senator Harding's return to his office in the capitol was the signal for an informal reception on the part of senate employees, who crowded about to congratulate him. Shortly before his arrival, his private office was decorated with a large American flag and flowers, while during the day large numbers of bouquets were received from friends.

Despite his strenuous week at the Republican convention, the senator seemed in fine fettle and kept up a running fire of humorous comment as the moving picture men clicked off foot after foot of film. "He's as happy as a lark," remarked one by-stander as the senator joked with the movie men.

The senator seemed greatly touched as he read sheaves of congratulatory telegrams from Governor Calvin Coolidge, the Republican vice presidential nominee, from former President Taft, and Major General Wood and Senator Hiram Johnson, unsuccessful candidates for the nomination, as well as from Senator Pomeroy, his Democratic colleague from Ohio.

"Now wasn't that nice in him?" or "It was very thoughtful of him to send that message," were his most frequent comments as he carefully read the telegrams. Among the first responses was a telegram sent to Governor Coolidge thanking him for his message and a declaration that by the selection of a "truly great and trusted American" for the vice presidential nomination, the ticket had been strengthened.

Shortly before the senator left his office, he was invited to speak at a Flag Day celebration held tonight on the plaza in front of the capitol, but the plans in the rush of work he was compelled to decline.

**Secures Additional Office Space.**

The sudden accumulation of work due to his nomination resulted in the senator being forced to secure additional office space of which he

conferences with the newspaper men as long as he is in Washington. He also will confer tomorrow with Leslie M. Shaw, former secretary of the treasury.

In deciding to play golf today, the senator said he wanted to get some of the "convention smoke" out of his system. He was accompanied on the links by Senator Sutherland of West Virginia, former Senator Bourne, and B. H. Warner Jr. of Washington.

Senator Harding today received the following telegram from Col. William Cooper Proctor of Cincinnati, one of the managers of the Wood campaign: "Sorry I missed seeing you here that I might congratulate you in person on victory that crowned your plucky fight."

A correspondent of a French newspaper sought to present to Senator Harding a series of questions, but the senator declined to consider them. However, he did say to the correspondent:

"If I become the chief executive of this nation I can assure you that I will foster the spirit of friendship with France."

### Campaign Launched at Chicago.

Chicago, June 14.—The Republican campaign for the election of Senator Warren G. Harding to the presidency was launched today at national committee headquarters here. While Chairman Will H. Hays conferred with Captain Victor Heintz, regional director, and other leaders, the committee, moved from the coliseum back to its campaign headquarters in a hotel, cleared its desks of convention matter in preparing for the coming drive.

The first lot of five million lithographs of the candidate will be ready this week, Chairman Hays announced. The paper was purchased and cut several months ago and pictures and autographs of all the candidates obtained. By a strange coincidence, the printer who won the contract to print Senator Harding's picture to demonstrate his work.

## Massachusetts Convention Delegates Cheer Coolidge

Boston, June 14.—Governor Coolidge, Republican nominee for the vice presidency, received congratulations from Massachusetts leaders of the party at a reception held at the state house today. The Governor was greeted by Lieutenant Governor Channing H. Cox, Frank E. Hall, chairman of the Republican State committee, and Massachusetts delegates to the Chicago convention.

The delegates paraded from the South station to the state house, while whistles of harbor craft and factories were blown.

### Nomination Not the Greatest Thing.

In reply to the congratulations, Governor Coolidge said:

"The great office to which the national Republican convention has nominated me is one for which I hold the greatest respect. I am mindful of the great honor that has been conferred upon me, but besides that and apart from it, I appreciate very much more deeply the mark of friendship that has caused you men and women, tired as you are from your long convention and the long journey, to come here this afternoon, the moment that you arrived at your destination, and to assure me of your friendship and of your good wishes."

"After all, offices are ended and they fade away. Friendship and the esteem in which men hold each other may remain forever. And great as I regard the honor that the convention has conferred upon me, I regard with much more honor the tribute of you who know me, who have lived with me, and who worked and wrought with me, and the confidence that your presence shows that you have in me."

"I thank each and every one of you."

### Harding Replies to Coolidge's Message.

Cheers were given for "the next vice president," and "the Republican national ticket." Then someone suggested, "Three cheers for Oregon." The response was hearty. It was an Oregon delegate who placed Governor Coolidge in nomination for vice president at Chicago.

Governor Coolidge tonight received the following telegram from Senator Harding in reply to his congratulations:

"Thank you for your message. Your selection for vice president has strengthened our ticket by adding a truly great and trusted American. I am honored by the association."

## SUGAR EXPORTS THIS YEAR HAVE EXCEEDED 1919 TOTAL

Washington, June 14.—An embargo on the export of sugar is included in the plans of the department of justice for relieving the nation-wide sugar shortage. A. W. Riley, special assistant to the attorney general, today announced.

Sugar exports during 1920 already have exceeded exports for the whole of last year, Mr. Riley said. Exports for 1919 included 211,949 tons of Am-

## 4,000 Federal Employees May Retire on Pension

Washington, June 14.—Between 4,000 and 5,000 federal employees eligible for retirement on pension will be formally notified within a week of the automatic termination on August 15th of their active service with the government. The recently enacted retirement act provides that retirement must take place 90 days from its signature and that employees coming under the statute must be notified 60 days in advance. The retirement age is 70 years for clerical workers and 65 for mechanics.

It is estimated that in the District of Columbia alone 1,500 government employees will be retired for age.

Secretary Payne and Postmaster General Burleson today announced that no applications for reinstatement of employees in their departments would be approved.

Gompers Fears Issue Will Be

Questions of Fall Campaign

## AGAINST ONE BIG UNION

Veteran Labor Leader Says It  
"Runs Counter to Laws of  
Human Nature"

Montreal, June 14.—Organized labor of the United States was appealed to by President Samuel Gompers of the American Federation of Labor, here today, to give its support to the non-partisan political program of the federation and to urge upon congress the ratification of the league of nations.

Characterizing the failure of the United States to ratify the convention as "pitiable," Mr. Gompers, speaking before the annual convention of the federation, said, "If the question were submitted to the people without any other entangling problems, I am positive that the people of our country would say by an overwhelming vote that they desire the league of nations."

The veteran labor chief expressed the fear that in the coming political campaign, the league question "will be submerged in the number of questions which must attract the attention of the people of the United States."

"It is regrettable," he added, "that the question in itself has not had an opportunity to be presented for the consideration and determination of the people of the country."

Mr. Gompers was brief in his appeal to the federation to continue to stand by his non-partisan political program, asserting that this subject "may be in concrete form before the convention" within the next few days.

"Forty years of experience, of success and triumph," said Mr. Gompers, "has shown us the way. The demands which labor makes not only of employers but of society are for services which labor performs and gives to society and without which such progress would be impossible and civilization would come to a standstill. Labor makes demands for a better and higher life."

"The 'one big union,' he said, 'could not endure because it ran counter to the laws of human nature.'"

Mr. Gompers' address, which was greeted with great applause, came at the close of the convention's session today and was in reply to those given by Fraternal Delegates J. W. Ogden of the British Trades Union Congress, and J. A. McCalland, of the Canadian Trades and Labor Congress.

### LARKIN NOW AT DANNEMORA.

Oswego, June 14.—James Larkin, Irish labor leader, convicted of violating the state's criminal anarchy statute, was one of a group of 70 prisoners transferred today from Sing Sing to Clinton prison at Dannemora, N. Y. Nearly 200 prisoners have been transferred within two weeks because of the crowded conditions at Sing Sing.

Larkin had been receiving so much radical literature, prison officials said, that it was necessary to add several workers to the prison post office department.

### EMBARKATION PORT PASSES.

Hoboken, N. J., June 14.—The army port of embarkation here will go out of existence tomorrow and in its stead will function the headquarters of the army transportation service, under the command of Colonel Bradley, assistant chief of transportation service. It was announced tonight. Brigadier General Hines, stationed at Washington, is chief of the service.

### MARION TO WELCOME HARDING.

Marion, Ohio, June 14.—Marion's celebration of Senator Warren G. Harding's nomination for president by the Republican party will take the form of an old-fashioned celebration on July 4. It was tentatively decided tonight by a citizens' committee. The

## DEMOCRATS GET READY FOR SAN FRANCISCO MEET

Cummings Will Deliver Keynote  
Speech At Convention, Which  
Opens on June 28th

San Francisco, June 14.—Headquarters for two of the aspirants to the Democratic nomination for President at the national convention which will begin June 28, were opened here today. Those for whom offices were opened were United States Senator Robert L. Owen of Oklahoma, and Attorney General A. Mitchell Palmer. The headquarters of Governor James M. Cox of Ohio will be opened here tomorrow, with the expected arrival of E. H. Moore, national committee chairman of Ohio, who has charge of the governor's pre-convention campaign.

Bainbridge Colby, secretary of state, recently chosen a delegate from the District of Columbia, is being mentioned by leaders here for the permanent chairmanship of the convention. United States Senator Carter Glass is being discussed in connection with the chairmanship of the committee on resolutions.

Tentative plans call for the opening of the convention by J. Bruce Kremer, vice chairman of the national committee, who will introduce Homer S. Cummings, chairman of the committee, as temporary chairman of the convention, who will make the keynote speech.

E. G. Hoffman, secretary of the national committee, arrived today. Wilbur W. Marsh, treasurer of the national committee, is scheduled to arrive tonight.

### New York Delegates Leave.

New York, June 14.—The vanguard of New York's delegation to the Democratic National convention left here tonight on a special train for San Francisco. The party, which numbers more than 100 men and women delegates and alternates, includes the Queens county delegation. They will make a leisurely trip, stopping on the way at Niagara Falls and French Lick Springs, Ind.

### Will Boom Ambassador Davis.

Clarkburg, W. Va., June 14.—Officers of the "Davis for President" club left here tonight for San Francisco, where they will establish headquarters in the interests of the candidacy of John W. Davis, United States ambassador to Great Britain, for the Democratic nomination for president.

### Cool Convention Weather Predicted.

San Francisco, June 14.—Folks who associate national conventions with torrid temperatures, light weight suits, and lattice work underwear, had better disillusion themselves if they are coming to the national convention of the Democrats here, according to the United States weather bureau. All sartorial effects should include fairly warm inner and outer clothing and a light overcoat.

If the weather "runs to form," smart westerly winds, carrying penetrating chill, will blow in off the Pacific ocean and cool afternoons and cooler evenings will be the order. This last phase will be assisted by fogs in the late afternoon.

The bureau believes it will be good "convention weather," with plenty of opportunity for the average orator to warm up without looking like a bundle of wet wash. If the usual hectic parade for the candidates are staged toward the end of the afternoon, there need be no shedding of coats, collars or galluses.

"But," the weather bureau says, "unless a man seeks to keep warm by his enthusiasm alone, he had better come prepared."

## TO RELAUNCH SHAMROCK TODAY

Challenger and Trial Horse Expected  
to Have First Tuning-Up Off  
Sandy Hook Thursday

City Island, June 14.—Plans were completed here tonight for the relaunching at high water late tomorrow afternoon of Shamrock IV, Sir Thomas Lipton's challenger for the America's cup. The green racer has been hauled on the ways since last Friday, having her underbody polished and groomed preparatory to her trial races with the 33 meter Shamrock.

Colonel Neill, who is in command of the Lipton forces, said there was a possibility that the yacht might be given a short spin tomorrow afternoon under her lower canvas.

Present plans are for the entire "Lipton navy" to leave here at 7 o'clock Wednesday morning for Sandy Hook. Sir Thomas will lead the fleet in his recently chartered steam yacht Victoria. The challenger and the tug Governor Smith, which has been painted green to correspond with the color of the Lipton craft.

If the present schedule is carried out, the two Shamrocks will have their

## Profiteers on Trial in Binghamton Today

Binghamton, June 14.—Associate Judge Frank B. Cooper of Schenectady will preside at his first term of United States court here tomorrow. A number of profiteering cases involving Central New York merchants are scheduled for trial. First Assistant United States District Attorney Frank Clegg of Syracuse appears to represent United States Attorney General Palmer and announces there will be more determined prosecution of profiteers than ever before.

## SEES OUR FLAG AS WORLD PEACE SYMBOL

Secretary Daniels Pleads For  
"Wider and Holier Service  
to Humanity"

Washington, June 14.—Asserting the American flag must be made the "vitalizing symbol of world peace," Secretary Daniels, addressing the Flag Day mass meeting on the steps of the capitol tonight, called on American citizens to turn a deaf ear to the "selfish and provincial plans," which renounce the "altruism that sent the American army overseas."

Mr. Daniels said that because certain Americans had lacked vision and forgotten the ideals which "made us invincible in war," the promised blessing of the conflict, a "peace buttressed by mutual covenants between the Allied and Associated nations," had not been realized.

"But we will not scuttle in the hour of our own and the world's needs," the speaker continued. "Let us on this day reconsecrate ourselves to the attainment of peace and justice between all the nations of the earth. Let us here highly resolve that the dead of this war shall not have died in vain but that from their sacrifice shall come a new and wider and holier service to humanity."

A Flag Day pageant preceded Secretary Daniels' address. Government workers wearing costumes of the various periods in national history and a community chorus of a thousand persons, accompanied by the United States marine band, participated in the pageant.

New York, June 14.—Twenty-four hundred school children of Manhattan celebrated Flag Day at the foot of the Statue of Liberty today. Excursion boats carried the pupils out to the statue.

## REPUBLICANS PREPARE TO NAME STATE TICKET

Glynn Calls Meeting of State  
Committee to Fix Date and  
Place for Convention

New York, June 14.—George A. Glynn, chairman of the Republican State committee, today called a meeting of the committee for next Monday at the National Republican club here, to fix the date and place for the unofficial state convention. The convention probably will be held late in July. Saratoga Springs is said to be the favorite choice for a convention city, although Albany, Syracuse and Rochester are under consideration.

The unofficial convention probably will designate a complete state ticket and as the organization's choice for nomination at the primaries this fall.

"We must not have contestants for the state ticket injuring the party with their personal quarrels," Mr. Glynn asserted. "The general opinion of Republicans is that an entire state ticket should be designated at the convention."

Reports that the National committee or representatives of Senator Harding might attempt to smooth out the factional differences here were denied by Charles D. Hilles, the new national committeeman for New York.

"We have every hope and confidence that the Republicans of New York will make wise selections," said Mr. Hilles. "There will be no interference from the National committee or the national ticket."

### MUCH FREIGHT FOR ABROAD.

Washington, June 14.—Suspension for 30 days of provisions of the mercantile marine act prohibiting carriers from giving preferential rates on export cargo for vessels not documented under the laws of the United States was ordered today by the Interstate Commerce commission.

The action was requested several days ago by the shipping board, which held that available American tonnage was insufficient to take care of the large volume of freight awaiting shipment abroad.

## MAN, JEALOUS OF WIFE, MAY HAVE KILLED ELWELL

Clues Point to Woman  
Theory, Detectives  
in Case Assert

## ARMY AUTOMATIC USED

Another Possibility Is That  
Wealthy Card Expert Was Shot  
By Gambler He Had "Broken"

New York, June 14.—Jealousy over a woman or vengeance for heavy losses sustained at cards—which, if either, furnished the motive for the murder here last Friday of George B. Elwell, wealthy turfman and "whist wizard"—

The police tonight were fluctuating between these theories in their efforts to solve a crime which they admit is the most baffling they have encountered in years.

Clues point to the woman theory, according to the majority of the detectives working on the case. They claim this theory was strengthened today when it was learned that Marie Larson, Elwell's housekeeper, had found in the bedroom of his handsome home a woman's silk undergarment. This garment is reported to belong to a New York society woman, whose name is being withheld pending her examination.

The conviction that the husband of this woman, an ex-army man, killed the whist expert, was expressed by some detectives. The size of the fatal bullet and the fact that it had a steel jacket points to the fact that a government automatic pistol was used, they said. A 45 is too large a weapon for popular civilian use, they explained, and the steel jacket indicated that the bullet was fired from an automatic.

### Did "Broken" Gambler Shoot Him?

On the other hand, the police were reluctant to discard the theory that a gambler "broken" at whist by an international authority on the game, may have done the shooting. They sought to trace the source of a report that such a gambler had threatened to kill Elwell, and in continuing today examination of society women, sporting men, and prominent figures in New York's financial district, where Elwell occupied a broker's office, devoted most of their questions to "big play" in which he had engaged.

Some witnesses described to the police games in which the sky literally was the limit; games in which Elwell had matched wits—and considerable resources of his own—against the still greater resources of financiers with an international reputation.

On the other hand, stories of Elwell's "killings"—once estimated by his wife, from whom he was separated, as high as \$30,000 in one evening—were contradicted by Wilbur C. Whitehead, associated with the banking firm of E. K. Brierley and company.

### Elwell Was "Enthusiastic Loser."

Whitehead, an intimate friend of Elwell, who himself is considered an authority on auction bridge, spent much of the day at the district attorney's office. He described the dead man as "an enthusiastic loser," rather than a big winner.

"But can a man be an authority and at the same time a loser?" he was asked.

"Certainly," Mr. Whitehead replied. "That often happens. It's just the same in other things—the best lawyers often make the worst witnesses when on the stand themselves."

Mr. Whitehead said he regretted his "inability to throw any light on the case." He had not seen Elwell for some time.

Meanwhile, preparations were being made for Elwell's funeral tomorrow at Ridgewood, N. J. Richard Elwell, 15 year old son of the murdered man, arrived here today for the service from Andover academy, where he is a student. He said he was unable to give any information as to what had been his father's relations with women, as he had not seen him since he was five years old.

Joseph S. Elwell, father of the card expert, today obtained permission from the surrogate's court to open a safe deposit vault, which, he said, contained his son's will. He was authorized to open this vault only in the presence of a representative from the state comptroller's office.

The wife of the slain man announced today that she sought nothing for herself from her husband's estate, but that if the will did not provide for their son, she would take a hand in the proceedings.

The safe deposit vault was opened late today and what purports to be Elwell's last will was found. This document was said to have all his real estate and property willed to his mother and father.

## HEAD OF ALBANIA IS ASSASSINATED

Provisional President Slain By Student Who Calls Him "The Albanian Dictator"

Paris, June 14. — Essad Pasha, head of the Albanian delegation in Paris and former provisional president of Albania, was assassinated here Sunday. Three shots were fired at him by an Albanian student, two of which took effect.

Essad Pasha was emerging from the Hotel Continental in Rue Castiglione, when he was suddenly confronted by a young man who later gave his name as Rustem Ayens, and said he was an Albanian student. Without uttering a word, Rustem fired two shots, which struck Essad Pasha in the chest and another shot which went wild. Essad sank to the ground. He was picked up and taken to his bedroom, where he died shortly afterward.

The assassin was arrested by a waiter. He told the police he arrived in Paris on May 31 and declared the crime was not premeditated. Recognizing Essad Pasha on the street, whom he held to be responsible for the suffering of Albania, he said he felt a sudden impulse and fired the shots. Rustem termed Essad "the Albanian dictator."

Essad Pasha had a picturesque career. Regarded by all the European governments in 1913 merely as an Albanian outlaw, three years later he was recognized by these same powers as provisional president and minister of war of Albania, following the downfall of Prince William of Wied. Essad's selection as president of Albania was in reward for his services to the Allies early in the war in the fighting against Austria.

## COURSE OF MARKET IS DISAPPOINTING

Trading Almost Steadily Downward on Professional Pressure — No Revival of Public Interest

New York, June 14. — The course of today's stock market was distinctly disappointing to those who had hoped that developments over the week-end would find expression in higher quotations. Trading after the steady opening was almost steadily downward on professional pressure. Nothing in the day's operations suggested even a slight revival of public interest as a result of the deliberations of the Republican national convention. Nor did the better weekly reports of the Federal Reserve bank and the clearing house cause any change of sentiment.

Opinion was divided regarding latest political aspects, but Wall street seemed vastly more interested in prospective dividend announcements. Meetings of several of the important railroad and industrial companies, soon to be held, were the subject of much conjecture.

Money continued firm, as was to be expected, in view of tomorrow's heavy income tax payments. Call loans opened at 8 per cent, last Friday's renewal rate, easing later to 7 per cent. There was no increase of time funds, but conservative opinion inclined to the belief that rates would ease by the end of the month. Gains in western tonnage followed improvement in freight conditions, but leading terminals in the southwest continued to wait on relaxation of credits. Interior banks were reported to be renewing many loans maturing at the mid-year.

Somewhat in the order named, oils, especially the Mexican group, equipments, motors, independent steels, tobaccos and miscellaneous specialties were the outstanding features of the day's general reaction. Dividend paying rails, especially transcontinentals, extended last week's losses.

Speculative railway bonds, notably convertible issues, eased variably, but Liberty bonds and foreign war flotations held firm.

Old U. S. bonds were unchanged on call.

RELIGIOUS LIBERTY IN PALESTINE

Rights of All Creeds to Be Recognized, British High Commissioner Asserts.

London, June 14. — The general principles which will be followed by the new administration in Palestine, were announced today by Sir Herbert Samuel, high commissioner for Palestine. Sir Herbert said:

"Complete religious liberty will be maintained in Palestine. Places sacred to the great religions will remain in control of the adherents of those religions. Civilian administration for the country will be established immediately. The higher ranks will consist of British officials of ability and experience. Other ranks will be open to the local population, irrespective of creed. Order will be firmly enforced. The economic development of the country will be actively promoted."

"In accordance with the decision of the Allied and Associated powers, measures will be adopted to reconstruct the Jewish national home in Palestine. The yearnings of the Jewish people for 2,000 years, of which the modern Zionist movement is the latest expression, will at last be realized. The steps taken to this end will be consistent with scrupulous respect for the rights of the present non-Jewish inhabitants."

## A MEMORABLE EVENT.

Everybody Had a Good Time at Field Day in Laurens Saturday.

Laurens, June 14.—The Grade Promotion and Field Day exercises of the Laurens High and Rural schools were held in Kirkgaard's grove Saturday. The festivities opened with a community picnic. After doing justice to the generous supply of sandwiches, salads, cakes and ice cream, the following program was given:

Song, The Boys and Girls We Need, all schools; Play, Closing Day at Beasdale School, Primary and intermediate pupils of the Laurens High school; Recitation, Her Answer, Evelyn Marks, District No. 3, Mt. Vernon; Recitation, Seeing Things at Night, Alan Lindberg, District No. 6, Laurens; Exercise, What Girls Love to Do, Primary pupils of Laurens High school; Recitation by Shirley Cook, District No. 1, Laurens; Exercise, Stars and Stripes Jubilee, Grammer and first year pupils, Laurens High school; Recitation, Automobiles, Margaret Carr, District No. 9, New Lisbon; Solo, Little Robin Red Breast, Harry Field, District No. 2, Mt. Vernon; Recitation, Sorrow of Bobby, Eli-

sha Field, District No. 5, Mt. Vernon; Recitation, When Father Rode the Goat, Anna Herring, District No. 1, Laurens; Dialogue, Our Flag, District No. 11, New Lisbon; Valedictory, Samuel Dorfer.

After presenting the promotion cards Superintendent Cossart spoke briefly on community spirit. He stated that the presence of the parents and friends encouraged the children and that the quality of the program should have called out even a larger number. The exercises reflected much credit on both teachers and pupils.

All then repaired to Brook street, where the various athletic events were conducted by Mr. Lennox, district project leader. Miss Augusta Dorfer, chairman of the Field Day committee, awarded prizes to the winners of the following events:

## A BIG DAY IN UNADILLA.

Employees and Patrons of Nestle's Food Company Have Outing Friday.

Unadilla, June 14.—Next Friday promises to be the biggest day in the history of the Nestle's Food company's association with Unadilla people. The employees and patrons have been very agreeably surprised many times by the parties and receptions that have been given by the corporation and now the biggest and best time of all is offered for the employees and patrons. A basket picnic will be held on Hunt's island.

The program will start at 11 o'clock, old time, and will consist of field sports, tug of war between the patrons and employees, races, hundred-yard dashes for men, 25-yard dashes for women, and potato races for all, as well as three-legged races and broad jumps. Prizes offered for all events are worth winning.

At the conclusion of the field events and picnic lunch, speeches will be made by the leading business men of

## MRS. THOMAS' WORD TO WOMEN

Tell of the Great Good Lydia E. Pinkham's Vegetable Compound Did For Her.

Morris, Mich.—"About a year after my second baby was born I suffered with dizziness every morning. I could hardly get around. I had heard from other women about your medicine and had read letters about it, so my husband got me Lydia E. Pinkham's Vegetable Compound which I took according to directions and in a short time I was entirely relieved. I also took the Vegetable Compound before my last baby came and am thankful to say that it relieved my suffering very much and I shall never be without it at such times. I have told others of its great worth and shall keep on telling it."—Mrs. E. THOMAS, Box 184, Morris, Mich.

Women should not continue to suffer day in and day out and drag out a sickly, half-hearted existence, missing three-fourths of the joy of living, when they can find health in Lydia E. Pinkham's Vegetable Compound. If you would like free confidential advice, address Lydia E. Pinkham Medicine Co., Lynn, Mass.

the town and the New York representative of the Nestle's Food company, who is H. M. Rowe, and will be followed by a baseball game between the local town team and Harpersville town team. The Bainbridge band will furnish music for the day.

## Baseball Chatter.

The local town team crossed bats with the George Jacobi post of the American Legion of Sidney Saturday afternoon and was defeated by a big score. The first three innings were quite exciting but when the visitors took the lead, our boys lost courage and let them run away from them. The final score was 9 to 21.

## SEVERES ARTERY IN FOOT.

Wood Chopper Critically Injured, but Then Walks Home.

Delhi, June 14.—Joseph Paulynick, aged 64 years, and employed by the Beerston Acid company, while chopping wood on the Austin & Vandermark wood farm about four miles from this village, met with a serious accident this morning. As he was chopping a tree down, the axe glanced and came down across the instep, cutting a terrible gash and severing the leading artery of the foot. He was alone in the woods at the time but tied his handkerchief around the ankle and tore a piece of lining from his coat, bandaging the wound. He then proceeded to walk to the house, a distance of a quarter of a mile and upon reaching there collapsed. Dr. Woods of Delhi was summoned and found the man pulseless and it was with much difficulty that he was revived. The artery was tied and the foot put into position and the doctor has hopes of recovery.

FROM the wild Kentucky mountains, the land of feuds and "moonshine," came Cynthia of the Hills—to the great melting-pot of New York.

Tragedy had marked the life of this sweet girl, hardly out of her "teens," for her father and her two brothers had paid the penalty of illicit liquor-making.

Here in the great city, among new friends, she thought to find freedom from pain and sorrow, but the trail of "moonshine" was not so easily shaken off.

Her best beloved was tainted with an hereditary strain—the lust for moonshine in his blood,—

But heredity, lust, passion and all evil things are powerless when confronted by a good woman's true love

CONCERNING DEFLATION.  
The Saturday's issue of Bache's Re-  
view, a weekly summary of business  
conditions in the United States, has a  
word concerning lower prices, which  
perhaps will be suggestive to students  
of present social and financial condi-  
tions. According to the Review, de-  
flation of prices in general is an ex-  
cellent thing, and the way to bring it  
about would be a slow-down in busi-  
ness and a degree of unemployment.

This would be a drastic thing, but  
the Review argues that the labor turned  
adrift would seek jobs where they  
could be had. As the producers of ne-  
cessaries would probably keep open,  
while the producers of luxuries non-  
essentials would of necessity close  
down, employment would be sought in  
going establishments. This would in-  
crease the supply of essentials and  
eventually the price of these would  
decrease also.

Labor, the Review contends, is now  
40 per cent inefficient; that it not over  
50 per cent of the amount of goods  
that might be produced is being turned  
out in many of the larger manufactur-  
ing establishments. "Think what an  
increase in output would follow if in  
addition to increased labor, increased  
efficiency resulted, and how quickly  
prices would melt if 100-per-cent effi-  
ciency became general. Employers  
would gladly pay more for increased  
efficiency and the large added produc-  
tion would bring down prices appreci-  
ably. Thus labor would reap a double  
benefit, more pay and lower cost of  
living, and the whole operation would  
foster industrial peace and permanent  
prosperity."

Like all panaceas suggested by a  
single class of individuals, the Review  
evidently does not see all the points  
at issue. Still its suggestions are  
worthy of perusal and a fair degree  
of consideration.

INTEREST ON LIBERTY LOAN.  
The treasury of the United States  
will distribute today to subscribers to  
the First Liberty loan and Victory  
Liberty loan notes the sum of thirty  
millions of dollars in interest on these  
notes outstanding in the Second Re-  
serve district. Originally there were  
978,359 subscribers to the first loan in  
the district and their investments were  
\$1,191,992,100. To the Victory loan  
notes there were 2,484,532 subscribers,  
whose purchases amounted to \$1,762,-  
684,900.

The figures of the coupons present-  
ed for payment on the last interest  
date show that a large number of cou-  
pons have been left uncashed. Al-  
though the government is the gainer  
by the failure of bondholders immedi-  
ately to cash the due coupons, it is  
the desire of the Treasury depart-  
ment to have each bondholder profit  
from his money to the fullest possible  
extent. It is therefore suggested to  
the subscribers that they clip the cou-  
pons at once and reinvest the money  
thus collected as interest to the mu-  
tual advantage of themselves and the  
government in United States Savings  
securities, such as Savings Stamps or  
Treasury Savings certificates.

Holders of these securities receive  
an attractive interest, and as these  
securities increase in value from  
month to month, holders can always  
receive their principal plus accumulat-  
ed interest. In order to facilitate the  
reinvestment of coupon money in Gov-  
ernment Savings stamps, arrange-  
ments have been made for their ac-  
ceptance at post offices and banks as  
direct payment in lieu of currency for  
these miniature Government Discount  
notes.

MARTIN, COBB AND HILL

Recipients of Honorary Degrees From  
Syracuse University.

At the annual commencement ex-  
ercises held yesterday at Syracuse uni-  
versity, three men well known in One-  
onta and two of them former resi-  
dents, were the recipients of honorary  
degrees from that well-known institu-  
tion. They were Rev. Edward A.  
Martin of Binghamton, former resi-  
dent of this city and presiding officer  
of the Oneonta district of the Wy-  
oming Methodist Episcopal conference,  
who received the degree of Doctor of  
Divinity from his alma mater, Hon.  
William H. Hill of Johnson City, now  
member of congress from this district,  
to whom the distinction of LL. D. was  
given, and Charles N. Cobb of the  
State Education department, who was  
a member of the first faculty of the  
Oneonta State Normal School, and  
who resigned therefrom to enter the  
service of the state in connection with  
the work which he is still carrying  
on. His degree is Ph. D., Doctor of  
Pedagogy.

In addition to the above, another  
man, President L. L. Sprague of Wy-  
oming seminary, who is scarcely less  
well known in Oneonta and vicinity,  
received the degree of L. H. D., Doctor  
of Humane Literature.

of citizens and all of them so com-

## COMMENT OF DAILY PRESS

Reindeer Steak.

Twelve years ago there were 1,200  
reindeer in Alaska, now there are  
200,000, and an Alaskan capitalist  
plans to ship 5,000 frozen reindeer  
carcasses to America this fall. The  
meat is said to be as good as beef and  
is expected to find a ready market. As  
only the surplus males are picked for  
slaughter, the herds are growing rapidly,  
and within three or four years it  
is expected that the number will have  
grown to a million. Alaska is said to  
be capable of providing forage for un-  
limited numbers of reindeer, and the  
natives find the raising of the animals  
easy and profitable.—(Toledo Blade.)

Irate Father—What, more money?  
See here, young man, what did you  
do with that last five hundred I gave

Truth and Wisdom.

It is a pleasure as profound as it is  
unusual to find ourselves accepting,  
without reservations, a declaration by  
Henry Cabot Lodge upon an important  
question of public policy. When he  
said in his address as temporary chair-  
man of the Chicago convention that  
with the government management of  
the railroads during the war there was  
universal and just dissatisfaction, and  
that "the experiment failed and should  
not be renewed," he uttered words of  
truth and wisdom from which there  
will be dissent only among the advo-  
cates of the Plumb plan or similar So-  
cialistic devices.—(New York Times.)

"Kebbeges is awful high dis year,"  
he said. "Me and mine wife puts up

kraut every year, but I can't dis year.  
De kebbeges cost too much."  
"But you put up some sauerkraut,  
didn't you, Hans?" questioned a  
friend.

"Oh, yes, two or three barrels, just to

announcement of winners in this  
state. The postmasters at Rochester,  
Saratoga Lake, Addison and North  
Lawrence were winners in the offices  
of first, second, third and fourth class-  
es respectively. In addition honor-  
able mention is made of the next high-

them being Frank A. Bartley of Sid-

## WISE COUNSEL ON FORESTRY

State College Tells How to Plant and  
How to Look After Trees Which  
Have Been Planted.

While forest trees are expected to  
plant their own way in the world after  
being planted, we must not turn our  
children entirely loose to the tender-  
mercy of the wide, wide world after  
getting them started.

This is the caution sent to this coun-  
ty by the New York State College of  
Forestry following the work handed  
down this spring in assisting in the  
planting of the Forest of the Dozen  
Dads. The letter, sent to Floyd E.  
Barlow, manager of the Otsego County  
Improvement association, with  
whom the work was done in handling  
the planting problem, is typical of the  
manner in which the forester regards  
his forest plantations. The letter con-  
tained:

"While the forest tree is expected  
to do fairly well unassisted, does not  
need careful cultivation like a crop of  
corn, or a hill of potatoes, yet there  
are certain things which must be ob-  
served in future care of the planta-  
tion.

"First of all, fires must be scrupul-  
ously kept out of the tract. The  
slightest fire may do damage to the  
young trees, which can not be repair-  
ed, short of an entirely new planting  
of new stock, with the loss of all the  
years in which the young trees have  
grown since their planting.

"Grazing must be forbidden. Un-  
less there is an over abundance of  
grass, stock will certainly destroy the  
young tree growth, and even if there  
is grass, the grazing animals will  
trample to death the tender young  
transplants.

"The area which has been planted  
to forest must be kept as forest land,  
and can not be used as a baseball dia-  
mond, or football field, with any  
chance of the trees surviving. The  
land must be left free of destroying  
influences.

"Nearly every case in planting by  
the College of Forestry where good  
results have not been obtained, it has  
been found that the difficulty was  
due to some such damaging influence  
as mentioned.

"When the planting has been done  
by school children, there is always a  
large proportion of the trees which  
will be found to have been improv-  
erly planted. No forester can supervise  
a large planting by children without  
some such carelessness being found.

"The successful plantings are those  
where the young forest has been cared  
for, and not abused."

Enlists in Navy.

way has enlisted in the navy at the  
local recruiting station for a period  
of two years, as apprentice seaman for  
electrician general. He left yesterday  
for Syracuse to try final examinations,  
after which he will be sent to Hamp-

## HARTWICK SUMMER ASSEMBLY.

Plans Completed for Week of Confer-  
ence and Instruction at Seminary.

The summer assembly at Hartwick  
Seminary, which in the first season of  
its existence was so pronounced a suc-  
cess, has sent out a circular detailing  
the plans of the organization for the  
present year. The assembly will be  
held August 23 to 27, inclusive, and  
the program indicates that instruction,  
rest and recreation will be properly  
blended. The expense of the five days  
will be \$2 for registration and \$3 for  
board and room—certainly a very  
moderate figure.

Among those who will take part in  
the morning exercises of the week are  
Rev. A. E. Dietz, D. D., of Jersey City,  
Dr. D. Burt Smith of Easton, Pa., Rev.  
Dr. Herman of Harrisburg, Pa., Rev.  
W. M. Horn of Ithaca, resident pastor  
of Cornell university, Hon. Jared Van-  
Wagoner of Lawersville, and many  
others. Among the evening speakers  
will include Rev. C. Baynard Young,  
of Brooklyn, a member of the Near  
East Relief commission, Rev. H. S.  
Miller of Brooklyn, and on Friday, ev-  
ening the closing address by Major  
George R. Luna of Schenectady. The  
afternoons are left free for recreation;  
and a trained kindergarten will care  
for the children each morning during  
the time of the lectures.

Full information can be had by ad-  
dressing Rev. Frank Wolford, D. D.,  
at Hartwick Seminary, or Rev. C. A.  
Ritchie at 72 Main street, Bingham-  
ton. Many former students of the  
seminary availed themselves of the op-

portunity to attend the conference  
last year, and it is probable that many  
others will do so this season. The con-  
ference, however, is not limited to  
these or to members of any denomina-  
tion. All will be welcome and accom-  
modations for all will be provided.

Normal Alumni in Binghamton.

Mrs. Ralph O. Vanatta was elected  
president of the Oneonta Alumni asso-  
ciation of Binghamton at the meeting  
held in connection with the annual  
outing Saturday in Ross park. The  
other officers elected are: Vice presi-  
dent, Miss Gertrude Stone; secretary,  
Mrs. H. Clair Lester; treasurer, Miss  
Evelyn Welsh. Covers were placed  
for 50 at the picnic supper which was  
served at 7 o'clock. Red and white,  
the school colors, prevailed in the ta-  
ble decorations, geraniums being the  
flowers used. Miss Calla L. King  
was chairman of the committee on  
arrangements, which included Mrs. A.  
J. Miles, Mrs. H. Clair Lester, Miss  
Irene Moody and Miss Gertrude Stone.

Presented Nippon Chocolate Set.

At the Main Street Baptist church  
last Friday evening, Miss Ruth King  
was presented by the choir of the  
church with a beautiful Nippon choc-  
olate set, after which delicious refresh-  
ments were served and the evening  
pleasantly spent in games. Miss King  
is to be married June 24, and has for  
the past year and a half acted as solo-  
ist in the above choir.

## MOTHER WAS NERVOUS

NERVOUS?

"Why, mother was so nervous that we didn't know what to do. Everything she picked up she dropped on the floor, her head ached frightfully nearly every day, and she hadn't had a good night's sleep in over a year because of a persistent cough. The throat specialist said the cough was due to nerves, and Dr. Bancroft, our family physician, said 'nerves', and advised a complete rest. But a month in the mountains made almost no difference—and the head-ache got worse.

Then one day my Uncle Fred stopped over a train to see us, and Mother happened to be having one of her splitting headaches.

'Don't you wear glasses, Sarah?' he asked Mother.

None of us had ever thought of the eyes as a possible source of all this trouble. But the next day mother had DeLong examine her eyes, received her eyeglasses, and—my gracious what a change!

Why mother's just her own serene, calm self again. Bless those glasses."

So Perhaps if you have DeLong Examine your Eyes

you, too will discover that the little ills—the headaches and nervous spells and sleeplessness—will completely cease. And you may, by having your eyes examined now, prevent serious ocular defects. If DeLong discovers, through his careful, scientific, and honest tests, that you need glasses, he can furnish them to you from \$2 up—depending upon the lenses needed and the frame or mounting selected. No drops used—DeLong methods eliminate this danger, discomfort and added expense.

# Klipnokie Boys

Arrive Friday Evening for Week-End Outing

WILL BE WELL ATTENDED.

Motor Trip Through Catskills Friday Afternoon—Drive About City Saturday Morning—Baseball Game in Afternoon—Dinner and Banquet at Country Club Saturday Evening.  
Acceptances have been received from 67 of the members of the Klipnokie Boys of New York city for the reunion and outing at the Old Home Town on Friday, Saturday and Sunday next. While numerous members will come in their own autos and by train, there will be a creditable gathering leaving on the day line boat Friday morning. They will be met at Kingston by motor cars from this city and brought through the Catskills, stopping at the hotel of Seymour N. Murphy at Grand Gorge for dinner between 5 and 6 o'clock. It is expected that those who drive through from New York city will rendezvous at Kingston and accompany the party through the mountains.

The visitors will not reach this city until late Friday night, and those not entertained by old friends will be the guests of Oneonta citizens at the Oneonta and Windsor hotels during their stay here. Saturday morning motor cars will be provided and the visitors will be given rides about the city, showing them its growth and advancement. They will be taken wherever the occupants of each car may wish. After lunch the visitors will be escorted to Neahwa park, where they will be given a chance to see Oneonta's ball team, Weldman's Cubs, play with one of the strong teams of this section. Afterwards the visitors will be taken to the Oneonta Country club, where dinner will be served at 7 o'clock, at which as many of the Oneonta friends as possible will be accommodated. Following the feasting there will be an interesting toast program, with M. C. Hemstreet, chairman of the reception committee, presiding. Mayor A. E. Ceperley will welcome the visitors, and Rev. W. W. Giles will respond to the welcome. He is considered one of the most eloquent after dinner speakers in the state. One of the city's gifted speakers will also speak. Numerous visitors are also expected to respond in a reminiscent mood, and the toasting will last until a late hour.

It is not improbable that arrangements will be made to have Rev. Dr. Giles speak at one of the city churches Sunday morning and upon some theme apropos of the visit of the boys to the old home town. The visitors will wear a white badge, the caption of which will be "Home Again." It is hoped that the ice cream stands, cigar stores, etc., will recognize the badges and extend the courtesies of their respective business places to all wearing the badges.

## MANAGER WEIDMAN'S CUB

Visits Star Office Last Evening and Overturns Paste Pot.

Harry Weidman, manager of the Oneonta Cubs, paid a visit to The Star office late last night and brought along his pet cub, mascot for the ball team. The young bear behaved himself decorously enough while inspecting the linotypes and imposing stones, doing no serious damage, although making an effort to pi one of Boss Ad. Senter Parker's best productions. When he returned to the front office, however, he got a whiff of Night Editor Mason's maulage pot and despite Mr. Mason's best efforts to rescue it managed to spill its contents over the mailing list in an effort to drink the stuff. Whether it had the odor of Horke Vio or its sweet fragrance attracted the cub, has not been ascertained. It is hoped that this issue will appear on time despite the occurrence.

## Bully for Them.

It's no wonder that some 3,000 little fellows in Oneonta and vicinity are getting bumpy. In other cities chambers of commerce, wealthy people and manufacturers are combining to solve the housing problem, while here in Oneonta, little fellows are doing the trick. They have learned how I give them a chance to safely combine small monthly amounts into large amounts, thus have more money than the big fellows; beat them to a frazzle and at the same time benefit themselves to the tune of several million dollars. It's great. Just paste this in your hat and remember it. "If my little fellows tell other little fellows how the trick is done and how it also makes small amounts safely roll up to several million dollars for them and they see the hole in the ladder; it will make the big fellows look like thirty cents." Uncle Sam helps and says: Go to it. I am the safe and sane Oneonta Building and Loan association. It

# WURED IN FALL FROM CAR

Mrs. D. B. Eddy Suffers Brains When She Jumps From Burning Auto.

Mrs. D. B. Eddy of 9 Elm street, wife of the well-known assistant D. & H. roadmaster, was severely bruised last Sunday evening when she fell while attempting to jump out of their Chalmers touring car, which was afire.  
Mr. and Mrs. Eddy were returning to Oneonta after spending the day with relatives in Sidney and when about a mile and a half south of Wells Bridge, the engine backfired and set the car on fire. Both Mr. and Mrs. Eddy at once got out and he ran around to the rear and started to fight the flames. After he had succeeded in extinguishing the fire, he heard Mrs. Eddy's call for aid and rushing around to the other side of the car found her lying on the macadam in a semi-conscious condition. She had stepped out of the car on the opposite side from Mr. Eddy, and he had not noticed that she fell and struck her head on the hard road, rendering her partially insensible.

The injured woman was removed, with the aid of tourists, who had stopped, to the nearby farmhouse of E. Bookhout and Dr. White of Oneonta was hastily summoned. After an examination, Dr. White found that no bones had been broken but that she suffered from the shock and many cuts and bruises about the head and body. After a short time, Mr. and Mrs. Eddy were able to resume their trip and arrived in Oneonta Sunday night. Mrs. Eddy's many friends will be pleased to learn that she is making a good recovery and is practically herself again.

The car was little damaged by the flames.

## Open-Air Concert by Company G Band

The first open-air concert of the season was given last evening at Brown's park on Main street by the Company G band, of which W. S. Deuster is leader. The band gave an excellent concert, and well deserved the frequent and hearty applause by the large audience assembled in the park and in automobiles parked in solid lines on both sides of the street. The program of the concert was as follows:  
March—Our Colonel, H. A. VanDercook.  
Overture—King Rose, George D. Barnard.  
Waltz—Sweet and Low—Charles L. Johnson.  
Serenade—Fond Hearts, K. L. King.  
March—United Musicians, Harry J. Lincoln.  
Selection—Carman, Bizet, as by L. Hayes.  
Fox Trot—Who Wants a Baby? Jack Tellen and Abe Olman.  
March—United America, Ernest Weber.  
The band appeared last evening with 26 members who did fine work despite the limited quarters offered in the pagoda.

## Flag Day at Elks' Club.

Flag day exercises were held at 8 o'clock last evening in the lodge rooms of the Elks club of this city. There was a good attendance and much interest was shown in the program, which included a reading of "The History of the American Flag," by Dr. Tatlock, and of the eulogy which is part of the ritual, by Dr. George J. Dann, and also the singing of "America," "Star Spangled Banner," and "Auld Lang Syne," by the Elks' quartet.

## "HOW TO REDUCE THE HIGH COST OF LIVING."

ALICE JOYCE IN VITAGRAPH STAR

Alice Joyce solves the problem in her latest Vitagraph Super Special, "Dollars and the Woman." If you are confronted with the ever increasing expenses and dwindling savings, this picture will give you fresh hope. It will show you how to defeat existing conditions and find true happiness in your own home. This is the picture that the New York critics said was "Too Good" for the average New York spendthrift audience. Come to the Oneonta theatre next Saturday, one day only.

# TWO HORKE VINO DRUNKS.

Arrested in Front of the Municipal Building Yesterday Afternoon.

Two chaps much the worse for stimulants staggered along Main street yesterday afternoon, and when they passed the Municipal building Officer O'Dell espied them and took them into custody. They were inclined to resist, claiming that they were not drunk, and he was having a bit of trouble to get them into the building when Officer Jones came to his assistance. They moved along thereafter promptly, though with some reluctance.  
They gave their names as George, and Peter VanValkenburg and their address as Maryland. Each had in his possession a quart bottle of Horke Vio, the drink upon which most of the drunks are getting their jags. This is a bitter wine alleged to be a tonic, but it contains from 17 to 20 per cent alcohol. It is said that the federal law does not prohibit its sale. Certainly there should be some means of controlling the traffic in it. It is said to create an ugly inclination on the part of many partakers.

## Lincoln Kellogg Home from West.

Lincoln Kellogg, who had spent practically the whole of the past three years in Colorado, arrived in Oneonta yesterday afternoon and is now with his parents, Hon. and Mrs. A. L. Kellogg, at the family home on Ford avenue. It is his intention to spend the summer at least in this city. A pleasant feature of his trip homeward was his sojourn at Chicago, where he attended every session of the Republican National convention from the first call to order to the final scene of adjournment.

## OBITUARY.

**Mrs. Emory T. Cornell.**  
May Elizabeth Comstock, wife of Emory T. Cornell, died at her family home, 41 Hudson street, was referred to briefly in The Star of Monday, was born at Charlottesville, September 17, 1853, the daughter of the late Martin F. Comstock. Her early life was passed in the place of her birth. On September 17, 1871, she was united in marriage with Mr. Cornell and they resided successively at Charlottesville, North Harpersfield, South Worcester, Center Valley, Stamford and Harpersfield. In 1902 they removed to Oneonta where they have since made their home with the exception of about 10 months during the year 1919 when they lived at Westford.

Mrs. Cornell had enjoyed good health most of her life and up to Tuesday last, when she was stricken with paralysis. While she had short periods of consciousness her strength steadily failed until the end, Sunday evening. She was a life-long member of the Baptist church, first at Charlottesville and later of the First church here. She was a kind mother and good neighbor and many will learn with regret of her demise.

The funeral services will be held on Wednesday, at 2 p. m. from the home at 41 Hudson street. Her pastor, Rev. Dr. Edson J. Farley, will officiate and interment will be made in Glenwood cemetery.

Surviving Mrs. Cornell of near relatives are her husband, one daughter, Mrs. L. B. Eckerson of this city, the only son, Fred, having died in 1906, one sister, Mrs. Mahamie Silverman of Charlottesville, and one brother, Erasmus Comstock of North Harpersfield.

## DEATH AT ELK CREEK

**Lewis W. Dutcher, Life-Long Resident of Otsego County, Claimed.**  
Elk Creek, June 14. — Lewis W. Dutcher, an aged and respected resident of this village, passed away this morning at 7:45 o'clock at the home of his son, Fred Dutcher, following a gradual breaking down of his system due to the infirmities of age. Funeral services will be held at the home Wednesday afternoon at 2 o'clock. His pastor, Rev. George Williams of Westford, will officiate, and burial will be at Hartwick Seminary.

Mr. Dutcher was born at East Springfield on August 6, 1843, a son of Christopher and Roxie (Bailey) Dutcher, and spent practically his whole life in Otsego county. On September 25, 1864, he married Emma D. Moore at Hartwick Seminary, where most of their wedded life was spent. Sixteen years ago, they moved to Westford, where Mrs. Dutcher died on September 12, 1916. Mr. Dutcher continued to live in Westford until last spring, when on account of poor health he came to Elk Creek to live with his son. He was a mechanic by trade and in the following of his work he gave general satisfaction. He was a man with a sociable and kindly disposition, and his passing will be regretted by a large circle of friends. He was a member of the Methodist church at Westford.

Besides the son mentioned, Mr. Dutcher is survived by one other son, Rev. L. B. Dutcher of Oswego, and by one daughter, Mrs. Louise Clark of Elk Creek.

Wanted — Gentleman or lady to work in Star Lunch, Chestnut street, a-lac, go-carts retired. E. W. Boland, 55 Chestnut street. advt 1f

## FUNERALS.

**Mrs. George Lamartine.**  
The funeral of Mrs. George Lamartine of 19 Fonda avenue was held yesterday morning at 9 o'clock from St. Mary's church, Rev. Father W. D. Noonan officiating. After the services the body was taken to Mt. Calvary cemetery for burial. Many beautiful floral tributes were presented by relatives and friends, a piece being sent by the Macdonists and Machinists' Helpers of the D & H. shops.

## Death of Fred Doster.

Fred Doster, 26 years of age and formerly a well-known young resident of this city, died Sunday night at his home in Endicott. He is survived by his wife formerly Miss Ruth Morgan; his two sons, Donald and Eugene; his parents, Mr. and Mrs. William Doster, all of Endicott; two sisters, Miss Elizabeth Doster of New York city, and three brothers, William Doster of Oneonta, Frank Doster of New York city, and John Doster of Endicott. The funeral will be held this morning at 10 o'clock at the funeral chapel of J. R. Allen and at 10:30 o'clock in the Baptist church. Burial will be in Riverhurst cemetery, Endicott.

Mrs. A. Witholt and Mr. and Mrs. William Doster left Oneonta yesterday to attend the funeral. Mr. Doster's death was caused by blood poisoning contracted in a tannery where he was employed, and for the relief of which he underwent an operation only three days before his death.

# PUBLIC ROADS

## HORN AUTOMATICALLY TOOTS

Device Installed on "Dead Man's Curve" in North Carolina Warns of Approaching Motor.

"Sound your horn!" "Dangerous curve ahead!" The roads are well fortified with these bright red warnings. But you can't see signs by the roadside at night, and you surely don't want to toot your horn continually, waking sleepers in the houses you pass. What then?

The solution lies in the unpretentious oblong piece of metal lying in the road. As your car passes over it a horn a few feet in front of you automatically toots loud and long, letting the people around the curve know that you are coming.

The device is not unlike the light signal system used in the New York subways and that are operated automatically by the trains.

You will notice two tread running lengthwise. As your car passes over the one on the left it will be depressed and an arm extending downward from it will hit a ratchet wheel. This wheel then rotates and carries with it a larger wheel attached to its shaft.

Counters on the large wheel will hit against electric brushes as it rotates. Wires from the brushes lead to the horn and its motor. When the circuit is thus closed the horn will toot.

But why have this revolving wheel instead of ordinary metal contacts? Because if your automobile is going at the usual rate of 20 miles an hour the tread will be depressed for only about one hundredth part of a second—much too short a time for even starting the motor on the horn. The revolving wheel tends to prolong the contact.

And now for the tread on the right side. This prevents the horn from tooting unnecessarily when a car approaches from the opposite direction where it has already passed the danger.

The right tread likewise has an arm attached to it. But this arm is fixed at an angle so that it almost touches the arm of the left tread. Then, when the right tread is depressed, the right

arm swings into the left one and throws it clear of the ratchet wheel. There is no rotation and no consequent tooting.

The device was invented by Charles E. Lyman of Asheville, N. C., and the first one was installed on "Dead Man's Curve" in Buncombe county near the building of a casher company—Popular Science Monthly.

## The Wonders of America

By T. T. MAXEY

## THE AMERICAN DEAD SEA.

IF YOU can imagine a lake 100 miles long, 25 miles wide, with an average depth of 20 feet—60 feet is the greatest depth recorded—almost 1,000 miles inland and 4,250 feet above sea level, you can form some conception of this world marvel—Great Salt Lake.

Its waters are six times as salty as the ocean. Put five bucketfuls in a tank, let it evaporate and one bucketful of pure salt will be left. A bath in its buoyant waters is both delightful and exhilarating. Saltair—an immense, crescent shaped, domed and towered bathing pavilion—has been built out into the lake 2,000 feet from shore.

The lake contains eight islands. Four rivers empty fresh water into it, but its surface neither rises nor falls. Having no outlet, it gets rid of the excess water by evaporation.

Scientists figure that the lake contains more than 8,000,000,000 tons of salt and almost 800,000,000 tons of sulphate of soda. Allowing 60 tons to a carload, that would be 13,333,333 cars of salt and 13,333,333 cars of soda. Assuming 40 feet as the average length of a freight car and you have a train of salt 1,010,101 miles long and a train of soda 101,010 miles long. The average speed of a freight train is about 20 miles an hour. Running at this speed, day and night, it would take the two trains over six years to pass a given point. The value of these cargoes would be probably \$10,000,000,000.

## Minister Quits Pulpit: More Money in Factory

Peekskill, N. Y.—Rev. Ellis Shipperly, pastor in three suburban Methodist Episcopal churches, has discarded his frock coat for a pair of overalls and began work as an apprentice pearl cutter in a factory here. He announced he had resigned his pastorate because he "could not make both ends meet," and would confine his preaching to "relief work which would not interfere with factory duties."

His salary as a pearl cutter would be several hundred dollars a year more than his salary as a minister, he said.

## ALCOHOL MURDER WEAPON

Woman Charges Man Gave Her Brandy Containing Poison.

Suit for \$150,000 has been filed at Atlanta, Ga., against John Kelley by Mrs. Catherine Bristol of Philadelphia. Mrs. Bristol charges that Kelley gave her wood alcohol with murderous intent to prevent her testifying against him in court, with the result that she was made blind.

Mrs. Bristol alleges the defendant gave her the poison to prevent her from testifying that he had made threats against the life of Mrs. Lucille Sharp, who died several months ago in Baltimore.

## COAST TO COAST AIR MAIL LINE

Government Officials Plan to Have Service in Operation Soon.

## UNCLE SAM WILL MAKE PROFIT

Planes Will Carry Letters From New York to San Francisco in 28 Hours — Lay Route as the Crow Flies.

Washington.—Uncle Sam will soon have an air mail route from New York to San Francisco. Congress has just increased the aerial appropriation to \$1,415,000, an increase for the 1920-21 fiscal year of \$604,500, to be used for this project.

This will mean that soon it will be possible to mail a letter in New York at 6 p. m. Saturday and get it to San Francisco by 8 a. m. Monday. By rail the same letter could get there no sooner than 8 a. m. Wednesday, more likely Thursday. The postage will be 2 cents. To get a straight fifty-word message through by wire costs \$4.70, a night letter \$1.30, or a ten-word straight message \$1.30.

At the same time, Uncle Sam will make a profit on the letter. The air mail routes already established are from New York to Philadelphia; New York to Cleveland, with a stop at Bellefonte, Pa.; Cleveland to Chicago, with a stop at Bryan, Ohio; Chicago to Omaha, with a stop at Iowa City.

As the Crow Flies. The route is going as straight as a crow can fly toward the coast. With the new appropriation at an early date the route will be extended from Omaha to Cheyenne, to Salt Lake City or Ogden, to Reno, to Sacramento and to San Francisco.

The first branch route will run from Chicago to St. Louis, which service is to be inaugurated as soon as the factory delivers the planes which have been ordered for some time. In due time, when appropriations are made, this line will be extended on south to New Orleans.

At the present time twin motor De Havillands and single motor De Havillands, capable of carrying 650 and 400 pounds of mail, respectively, are being used. They will be transferred to new routes and Martin and Thomas Morse planes, 1,500-pound capacity, especially built for mail service, will be put on the New York-Cleveland and Cleveland-Chicago routes. The air mail business is growing by leaps and bounds, despite the fact that it is carried for the most part as other mail. The experiment has been so successful that Postmaster General Burleson looks eagerly to the time when all first-class mail will be carried by airplanes.

"An airplane can put a cumbersome mail distributing coach out of business" is the way one aerial mail division attache expressed it. "Several of these distributing coaches have been eliminated between Washington and New York. The airplane simply carries the mail from the south, destined for New York, from Washington on. It arrives in New York early enough to be distributed at the postoffice to the carriers for the day's delivery. New York to Chicago in five hours. Mail leaving New York at 6:30 a. m. by air reaches Cleveland at 12 noon eastern time (8:30 p. m. by rail). Chicago at 3:15 central time (by rail at 4:30 the next morning). Air mail leaving New York at 9 a. m. reaches Washington at 11:36 a. m. and by rail it arrives at the capital at 3 p. m.

Five Martin planes have been delivered to the government. They cost about \$40,000 each. Four 1,500-pound capacity Thomas Morse planes are being constructed, and when they are delivered the Chicago-St. Louis branch will be established.

The postoffice department now has forty-five planes and twenty-five fliers. When the routes are extended to the coast it will have eighty planes. Since the service was started May 15, 1918, six pilots have been killed.

There are forty-two letters to the pound. A Martin or Thomas Morse plane can carry mail on which \$1,250 ordinary postage has been paid. To say nothing of the stimulant the rapid service offers to persons to send letters special delivery. All special mail is supposed to go by the quickest means. The extra profit to Uncle Sam in a special is 2 cents, the boy on the bicycle receiving 8 cents for delivering it. This would make the gross revenue for 1,500 pounds of special delivery mail \$2,520.

## HAD EASY WINTER

Parts of Alaska Did Not Experience Any "Below Zero" Weather.

At Juneau, the capital of Alaska, the coldest weather experienced during the present winter, according to climatological data kept by the United States weather bureau, was 3 degrees above zero, nor has "below zero" been recorded at any point in southeastern Alaska. In the Cook inlet country the coldest reported was 18 degrees below zero and in the interior—Tanana and Yukon valleys—50 below zero is the coldest for this winter, where from 60 to 65 below is usually recorded at least two or three times during an ordinary winter. In southeastern Alaska there has been more sunshine and less rain thus far during the winter months, and all indications point to an early spring.

## COST 53 CENTS TO GET \$100

Expenditure of \$20,573,000 Necessary to Collect \$3,850,150,000 of Nation's Taxes in 1919.

Washington.—The government paid 53 cents for each \$100 in taxes collected last year, according to a statement by the bureau of internal revenue.

In declaring untrue reports that the bureau had expended as high as 60 per cent of the income tax collected for administrative purposes, the statement showed that a total of \$3,850,150,000 was collected at a cost of \$20,573,000. Income and excess profits taxes made up \$2,600,783,000 of the total collections for the year.

You can save a lot of money, if you so desire, by coming to Oneonta to get your Tires and Tubes.

We have the largest and most complete stock in this part of the country, and mind you, all are standard makes, such as GOODYEAR, FISK, DIAMOND, KELLY-SPRINGFIELD, MICHELIN and GOODRICH. All are first class and fully guaranteed—Regular Fabric Tires, 6000 Miles, and all Cord Tires, 8000 Miles.

Right now we can save you about 25 percent on every Tire and Tube you buy of us. Early in March Tire Makers advanced their price about 25 percent and we expect another advance immediately. OUR PRICES ARE BASED ON THE OLD PRICE OF LAST YEAR—IT MEANS DOLLARS TO YOU TO GET WHAT YOU NEED RIGHT IMMEDIATELY while we offer you these attractive prices.

Another thing of importance to you is the fact that we are here to stand back of every Tire we sell until you have received your full value in mileage from each Tire. In case you have a tire which does not give you full mileage, we are authorized to make adjustments right here on the spot—no waiting until we send it back and hold you up a month or two, then charge you the price of a new Tire to make it good. Our guarantee means what it says—Tires, 6000 Miles and Cord Tires, 8000 Miles.

Glance through this list of prices and see what you can save, then call on us to furnish the goods.

# The Thrift of a MAXWELL comes from its special steels

Nearly 400,000 owners know well how thrifty a Maxwell really is.

Men in the trade in selling other cars often use the expression "as thrifty as a Maxwell."

Special steels are the underlying cause of Maxwell's thrift.

These are steels, made to Maxwell's own formulae, after years of tests, analysis and study, which make possible the ideal construction of great strength and light weight.

They give a Maxwell the

ability to stand wear, strain, twists and jolts that other cars much larger and heavier would have difficulty to resist.

But they make a Maxwell light. They eliminate useless weight; they ease the burden on the engine and thus gas, oil and tires render long mileage results.

Hence, the ever growing respect and admiration for Maxwell the world over; and its consequent fast growing numbers. Nearly 400,000 in use today; a year hence 500,000.

## TWO D. & H. TRAINMEN KILLED

In Rear End Freight Collision Near Saratoga Springs — Accident Caused by Dense Fog — Conductor Chappell and Engineer Bush of Oneonta in Charge of Second Train.

Two Delaware and Hudson railroad brakemen, Joseph Gallagher of Watervliet and James Phillips of Albany, were crushed to death as their bodies were burned in a freight train No. 535 ran into the rear of freight No. 515 shortly before 4 o'clock yesterday morning at the Borden milk station at Gansevoort near Saratoga Springs. Larry Wilson of Whitehall, conductor, was also severely burned and suffered from a fractured leg.

The wreck occurred in a fog, which was so dense that the second freight train ran past its block signal, crashing into the freight train ahead of which was moving slowly. Both trains were "extras" and had no specific time schedules.

Both trains were running in the same direction, but No. 515, being more heavily loaded than No. 535, was overtaken by the latter and a rear end collision resulted. Train No. 535 was in charge of Conductor Ray Chappell and Engineer George F. Bush, both of Oneonta. Conductor Wilson of Whitehall and Engineer George Phillips of Port Edward were in charge of train No. 515.

Five or six cars of train No. 515 were derailed by the collision. The wrecking crew had the tracks cleared again for traffic at about 8 a. m.

George Phillips, engineer of freight

train No. 535, was killed when he was crushed between the cars. He had been applying and rushing to get the burning caboose made his way to the engine. He found Phillips lying on the floor, and dragged him to safety while suffering burns himself. The bodies of Gallagher and Phillips were carried beyond recognition when taken from the fire.

Conductor Wilson was taken to the Otis Park hospital while the bodies of the dead men were sent to a Saratoga undertaking establishment. The flames from the caboose spread to an empty passenger car and two stock cars which were burned to the tracks. The officials of the D. & H. railroad are conducting an investigation as to who was to blame for the wreck. Both trains were "extras" and had no specific time schedules. The unofficial version is that the heavy fog prevented the engineer of freight No. 535 from seeing the signals and he ran his train past the block.

## Not Seriously Harmed.

Sunday evening, about 9 o'clock, when Mrs. V. L. Roberts of Lower Chestnut street, was crossing the street near her home, she was struck by a passing motor car, falling under the car, which was stopped with her underneath it. She suffered only slight abrasions of the skin on a wrist and a bruise on the other hand, and a bruised n.p. and the surgeon who examined her said they were minor injuries. The motorist was driving slowly and no blame is attached to him, the child admitting that she stepped out without looking.
